

Agricultural Science Safety Information
Parent/Guardian and Student

Dear Parent or Guardian:

Your child is enrolled in a Agriculture Science course and will have the opportunity to participate in supervised class activities that involve the use and operation of various tools and equipment.

Appropriate instruction in the safe operation of assigned tools, equipment, and procedures will be given that will include supervised student performance. Precautions are taken to prevent accidents, but a certain risk is involved due to the nature of the experience and the learning environment.

Proper eye protection is required by state law. We ask your support in discussing with your child the necessity to observe safety policies that have been established. You are welcome to come by on my conference period if I can be of further assistance. Thank you for your attention to this matter.

Sincerely,

G.W. Krasucky
Agricultural Science Teacher
